Counts are by county committee candidate and can overlap. The 2026 paid-job column uses the payroll review's supported matches and employer corroboration. Separately verified appointments with pay unknown are described in the roster. Public-office entries use the 2026 directory and agency records, which can reflect different dates. Later election returns and historical offices are dated in the notes.

District codes. D01 means election district 1. W03 / D01 means ward 3, election district 1. In a town filing such as CAMBRIA/000/001-CC-REPUBLICAN, 000 is the no-ward code and 001 is the district. The page number links to the filing page.

How the match was made

The review matched party and office codes to the candidate on each line of the May 27 report and checked the name against the 2025 and 2026 payroll research. Where available, government directories, council minutes, and dated news or family notices support identifications and additional roles. The tables retain the petition name even when a second record prints it differently.

A missing match can reflect an abbreviated name, a title omitted from the payroll data, an unpaid appointment or incomplete reporting. Generic payroll descriptions are shown as such. Family findings rely on public records that identify the connection.
