SOURCE NOTES

Scope and methodology

The three rankings use the same underlying filings. Each ranking applies the scope described on its opening page.

Period January 1, 2022 through the latest available itemized filings. The latest included donation date is October 19, 2026. The 2026 general-election post-election report is due November 30.

Recipients Niagara County Republican Committee and registered local Republican committees, plus identified campaigns for Republican ballot-line candidates in Niagara County county, municipal, State Senate and Assembly races. Cross-endorsed candidates are included when they appeared on the Republican line.

Coverage limits State and local disclosures cover this ranking. The scope excludes federal campaigns, statewide campaigns, the New York Republican State Committee and districtwide State Supreme Court races. See Committees checked for the exact set of filers.

Eligible payments Itemized monetary contributions, reported in-kind contributions, and eligible transfers and housekeeping receipts. Identifiable contribution refunds reduce a donor’s total. Loans, public matching funds, candidate or candidate-spouse self-funding and unnamed aggregates are outside the ranking.

Internal transfers The combined rankings omit identified payments from a committee already within the covered recipient group, so that money moving within the group is counted once. The county-committee-only view shows direct incoming committee payments.

Donor names Obvious filing variations are consolidated where the name and reported location support a match. Joint contributions remain under the reported joint name. Separate businesses and their individual owners are ranked under the names on the filings.

Repeated entries A repeated donor, recipient, date, schedule, amount and meaningful payment reference counts once. Entries without a payment reference retain their individual transaction IDs.

Niagara location Niagara County mailing cities and ZIP codes classify individual transactions. Mailing data can differ from residence or headquarters and some ZIPs cross county lines.

Transaction trail The detail sheet shows the original donor name and NYSBOE filer and transaction IDs. Use the Internal transfer column to reproduce combined totals and the Niagara location column to reproduce the Niagara-only totals.
